## *SBS Inspector of Record*

### Highlights

SBS and Fieldwire hosted a training to introduce Fieldwire, a construction management & inspection program, to new users at the University of California, Irvine. The meeting took place at Hensel Phelps' main office involving the contractor, quality control manager, and the inspection team. This inspection management software allows for users to communicate and track construction processes, from inspections to scheduling, issue lists, document control and management of all project files, and much more, all on one platform. The training showcased how to navigate through the application, how to create inspections, notify team members, generate reports, as well as, many other features

Fieldwire provides. SBS will be providing technical services for the inspection software program for their new hospital campus project.

HCAI issues Code Application Notices (CANs) to interpret specific sections of the California Building Standards Code. A Policy Intent Notice (PIN) is the Department's policy on a specific subject. You can find links on HCAI's website to view an index of CANs that were issued for a specific year of California Building Standards Codes and the index of PINs that have been issued.

For questions or comments related PINs or CANs, please email the Building Standards Unit at [RegsUnit@hcai.ca.gov](mailto:RegsUnit@hcai.ca.gov)

Which PIN/CAN applies to your code cycle project?

- PINs - Applies to every project unless it's expired or rescinded
- CANs - Start with the year of the code volumes you are using, then work backwards. CAN's will sometimes get adopted in next code cycle so if it's stated in code, the CAN does not apply.

You can find PINs by clicking *here* <https://hcai.ca.gov/construction-finance/codes-and-regulations/#PINs>

You can find CANs by clicking *here* <https://hcai.ca.gov/construction-finance/codes-and-regulations/#CANs>

---

## Newsworthy

**Do you have an interest in construction and inspection? The health care construction industry is looking for more certified Hospital Inspectors. It is a great opportunity for a rewarding career.**

**Registration is opened to become a certified Hospital Inspector.**

**Don't wait! The deadline is fast approaching!**

Submit your registration for  
Hospital Inspector Certification Examination (HICE)

Last day to apply is February 1, 2022
